APC

Sustainability Accomplishments

Equipment Upgrades

- State-of-the-Art Control Devices for Improved Energy Efficiencies
- Internal Solvent-free Platemaking
- Lamination Equipment Converted to Solventless
- Conversion Equipment Designed to Minimize VOC Emissions

Raw Materials

- Source Reduction
- Energy Reduction
- Incorporate Renewable and Recyclable Components

Focused on the Future

Sustainable is Attainable

American Packaging Corporation is committed to social responsibility. We focus on identifying ways to effectively integrate economic progress, social development, and environmental concerns to ensure an improved quality of life for future generations. Preserving natural resources and minimizing waste are an integral part of APC's day-to-day business activity.

Why Partner with APC?

- **APC** has a dedicated Sustainability Team and Green Teams
- **APC** is an active member of SPC and FPA
- **APC** has the resources and technical expertise to explore many alternatives
- **APC** has partnered with raw material suppliers focused on sustainability
- **APC** demonstrates good citizenship through community involvement and social responsibility
- **APC** comprehends the Wal-Mart initiative and can assist its customers in achieving their goals
- **APC** has partnered with RIT in developing innovative sustainable packaging options
- **APC** has focused on sustainability initiatives for over a decade

Opening Spring 2008

*APC is committed to a sustainable future through a significant investment to Rochester Institute of Technology for creation of **American Packaging Corporation Center for Packaging Innovation** at RIT. It is being built to meet packaging needs of the future using (LEED) Green Building Certification standards.*

APC

Sustainability Mission

- To **VIEW** environmental responsibility as an integral part of principled corporate citizenship and as an essential element in the products manufactured, materials procured, and processes incorporated into our research and development activities.
- To **ENRICH** our sustainability competence in the areas of reducing, renewing, reusing, and recycling materials and all related by-products.
- To **COMMUNICATE** cost-effective solutions, technological advances, improved product performance, and environmentally responsible developments to our valued customers.
- To **IDENTIFY** ways to effectively integrate economic progress, social development, and environmental concerns to ensure an improved quality of life for future generations.

American Packaging Corporation is comprised of three manufacturing locations all specializing in a focused process.

*Extrusion
Lamination & Coating
Division*

Rochester, NY

*Rotogravure
Printing & Lamination
Division*
